CITY BREVITIES.

Charles E. Fairman gave an illus-
trated lecture last evening in the audi-
torium of the Carroll Institute building,
entitled "One Hundred Miles Along the
Towpath." The illustrations were from
photographs taken on his journey on a
canal boat over the Chesapeake and
Ohio canal from Washington to Cum-
berland.

Dennis Shea a brakeman of the Penn-
sylvania Railroad, died at the Emer-
gency Hospital last night, after a pro-
longed attack of pneumonia. He was
taken to the hospital February 22 from
his home, 105 D Street southwest. He
is survived by two children.

Plunging from a horse's back, George
Eubank, aged twenty years, was badly
bruised about the arms and legs at
Carroll Avenue and Ninth Street
southeast, yesterday afternoon. The
fall rendered him unconscious, but he
was soon revived and proceeded home.

Warrants were issued yesterday for
Edward Syphax and Mabel Bland, negro
teachers in the public school of Garfield,
a suburb of Annapolis, charging them
with assault. The complaint is made by
Herbert Forest, a pupil, who declares he
was beaten with a rawhide by the man
and woman.

Mary Rich, of 707 Delaware Avenue
southwest, was the victim of a purse
snatcher in a dry goods store yesterday
while she was standing in front of a
counter, a negro pulled the pocketbook
from her hand and then made his es-
cape.

LATE LUNCHES.

Tea and coffee have a deleterious effect
on the nerves, and precision few people
can drink either late at night without
suffering for it. It is just the other way
with "Old Glory" beer. It soothes the
nerves and induces healthy sleep; consequently
it is an ideal beverage to serve
with a late lunch. Besides, everybody
likes it. If you wish to acquire a repu-
tation as a host or hostess always provide
a plentiful supply of "Old Glory" for your
guests and they will readily forgive any
other shortcomings. Telephone the Alber-
marle Brewing Company, Main 2128, when-
ever you wish a case sent to the house.

EXPERTS TO DISCUSS
ANTI-SPITTING LAW

Public Hearing Next Tuesday Before Commission-
ers to Consider Its Feasibility.

Interest is manifested in the public
hearing before the District Commis-
sioners next Tuesday on the proposed
anti-spitting regulation. The Board will
convene at 11 o'clock and listen first to
a presentation of the subject from a
special committee of the Washington
Board of Trade. This committee is in
favor of the regulation.

A number of other persons have sig-
nified their intention of being present,
and if time permits, to participate in
the discussion. R. Ross Perry called on
the Commissioners yesterday, saying he
would be away from the city next week
and desired to express beforehand his
earnest wish that the regulation be
adopted. Mr. Perry's chief reason for
wishing the prohibition of spitting on
the sidewalk was one of cleanliness for
the footways. He did not suppose ex-
pectation could be, or even ought to
be, prohibited, but he believed the pub-
lic could be educated to step to the curb
when the act was found necessary. The
Commissioners requested Mr. Perry to
write out his views and send the com-
munication to them to be considered
when the question is raised.

Dr. D. Percy Hickling has written to
the Commissioners suggesting that Dr.
Walter Wyman, Surgeon General of the
Marine Hospital Service, be invited to
attend the hearing and express his views
on the subject. Dr. Hickling was of the
opinion that Dr. Wyman, better than
anyone else, could present, from a
scientific point of view, the need for
such a regulation. The Commissioners
have invited Dr. Wyman to be present.

The proposed regulation makes it an
offense punishable by arrest and fine
for any person to expectorate on any
sidewalk in the District. If adopted it
would give policemen authority to ar-
rest any person they might see commit-
ting the offense. Persons also could be
arrested on information and warrant in
the usual way.

Commissioner Macfarland is in ear-
nest in his effort to secure the adoption
of the regulation. He believes it could be
enforced with as little difficulty as the
similar rule relating to street cars, and
he thinks the resulting cleanliness of
the sidewalks sufficient justification for
the seeming harshness of the law.

Commissioner West is not opposed to
the regulation, except that he thinks it
would be difficult of enforcement—so
difficult, in fact, as to be practically a
dead letter. Commissioner West, how-
ever, favored the hearing, and has ex-
pressed himself as in an attitude to be
convinced, if good reasons are present-
ed, and it is shown that public senti-

ment is in favor of such a law. Mr. West
believes that its enforcement would de-
pend almost entirely on public senti-
ment, and he says if the people of Wash-
ington are ready to take a stand against
expectorating on the sidewalks, he will
not oppose it.

There is some opposition to the regu-
lation on the ground that it would be
a useless law, and would be generally
ignored. It is expected that this view
will be presented by several persons at
the hearing next Tuesday.

PRECAUTION AGAINST FIRE

IN HARPER BUILDING

William T. Belt, Senior Assistant Chief
Engineer of the Fire Department, has
submitted to the Commissioners a re-
port on the condition of the Harper
Building, 467 C Street northwest. He
says the second story of the building is
used for a wholesale drug house, and
the store is strewn with paper and other
flammable material, though no explo-
sive materials are carried in the stock.

On one of the upper floors a school is
conducted, and for better safety of the
pupils, Chief Belt recommends the drug
store to be kept in better condition,
three gongs to be placed in the building,
and a fire-escape in front to take in the
windows of the hallways, and one win-
dow on each floor to the east and west
of the halls.

The report has been approved by the
Commissioners and forwarded to the
Building Department for its information
and guidance.

Where Heurich's Maerzen and Senate Beers
are sold on draught no other dark or light
beer is permitted to be sold on draught. A
sign is displayed which will assure the public
that they are drinking Heurich's. Look for
this sign.

OFFENDERS COMMITTED.

Samuel Cooper, a minor, was com-
mitted to the Reform School yesterday
until he reaches the age of twenty-one
years. He was charged with stealing
clothing from William Smith, and when
arraigned before Justice Anderson plead-
ed guilty. In the same court Joseph
Bell, who pleaded guilty to a charge of
assault with a dangerous weapon, was
sent to jail for a period of six months.

DECLARED INSANE.

The following persons were yesterday
declared to be of unsound mind by a
marshal's jury and committed to St.
Elizabeth's Hospital for the Insane for
treatment: Eliza J. Orr, David Martin,
Jr., Frederick Bodt, Addie Conway, and
Mary Rhodes. The proceedings were
conducted by Assistant United States
Marshal Robinson. The hearing in the
case of Margaret T. McIlven was post-
poned until Monday.
